

2023/2024 BOOT AND BINDING COMPATIBILITY

SALOMON

Warning:

Any boot and binding combination, even if identified as compatible in this chart, must be installed, adjusted, tested, and regularly maintained by an authorized Salomon, Atomic or Armada dealer.

This chart is intended as a summary of boot compatibility with current Salomon, Atomic and Armada bindings and/or boots. Other factors, including product wear and damage, must be considered. Release value selection and adjustment and Boot-to-Binding adjustments such as forward pressure, toe width and toe height, must be made by a certified Salomon, Atomic or Armada technician.

* ISO 23223 is the new standard for boots labeled GripWalk. Older models labeled GripWalk ISO 9523 are still compatible with GripWalk bindings.

** Type A: Adult boot – Type C: Children boot

*** Bindings with pins require boots with compatible inserts. Consult an authorized dealer
